

FUHAD SANEEN T

Full Stack Developer | AI Application Developer

saninfuhad763@gmail.com | +91 9567022763 | Perintalmanna, Malappuram, Kerala | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with a Bachelor of Computer Applications (BCA), Python Full Stack Development certification, and hands-on MERN Stack internship experience. Skilled in building responsive, user-focused web applications using React, Redux Toolkit, Node.js, Express.js, Python, Django, FastAPI, MongoDB, and PostgreSQL. Experienced in developing RESTful APIs, integrating frontend and backend systems, implementing JWT-based authentication and authorization, and working with Git and GitHub. Built AI-powered applications using LangGraph, Groq, and LLM integration, including an AI-powered resume platform, RAG-based assistant, and pharmaceutical complaint intelligence system. Strong in problem-solving, debugging, software testing, API integration, and delivering scalable full-stack solutions.

PROFESSIONAL EXPERIENCE

Web Development Intern | Zaalima Development Pvt. Ltd.

Mar 2026 — Jun 2026

Remote

- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Built responsive and user-friendly interfaces using React.js, HTML5, CSS3, JavaScript, Tailwind CSS, and form validation techniques.
- Developed RESTful APIs and integrated frontend and backend components.
- Collaborated with mentors and team members to deliver web application features and resolve technical issues.
- Used Git and GitHub for version control and collaborative development workflows.
- Debugged, tested, and enhanced application features to improve functionality and user experience.

EDUCATION

Bachelor of Computer Applications · Nasra College of Arts & Science

2019 — 2022

SKILLS

Programming Languages: JavaScript, Python, HTML5, CSS3

Frontend Development: React.js, Redux Toolkit, Tailwind CSS, Framer Motion, Responsive Web Design

Backend Development: Node.js, Express.js, Django, FastAPI, RESTful APIs, JWT Authentication

Database: MongoDB, PostgreSQL, MySQL, SQL

Tools & Version Control: Git, GitHub, Visual Studio Code, Vite, npm

Core Competencies: Problem Solving, Debugging, Software Testing, API Integration, CRUD Operations

AI / LLM: LangGraph, Groq, LLM Integration, Prompt Engineering

PROJECTS

CareerForge Pro – AI Resume Builder & ATS Optimizer
Core Developer

View Project (career-forge-pro-bice.vercel.app)

Jun 2026

- Developed a full-stack AI-powered resume builder using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Built an ATS resume analyzer with keyword matching, resume scoring, and job description analysis.
- Integrated AI API integration using LLM APIs for resume content generation and optimization.
- Implemented secure JWT-based authentication and authorization, responsive UI, PDF generation, RESTful APIs, and file upload handling.
- Used Git and GitHub for version control and collaborative development practices.
- GitHub: <https://github.com/saninfuhad763-collab/CareerForge-Pro>

OpsMind AI – RAG-Based AI Assistant
Core Developer

GitHub Repository (github.com)

May 2026

- Developed a Retrieval-Augmented Generation (RAG) assistant using React.js, Node.js, Express.js, and MongoDB.
- Implemented PDF document ingestion, file upload handling, semantic search, vector embeddings, and AI-powered question answering.
- Integrated Large Language Model APIs to generate context-aware responses.
- Built RESTful APIs and optimized backend performance for efficient document retrieval.
- Designed a responsive user interface with React state management and implemented Git-based version control.

AIVOA Complaint Intelligence
Full Stack Developer | AI Engineer

GitHub Repository (github.com)

Aug 2026

- Built an AI-powered pharmaceutical complaint management system using React, Redux Toolkit, FastAPI, LangGraph, Groq, and PostgreSQL.
- Developed text/PDF complaint extraction, structured form population, complaint-sensitive risk assessment, and AI Copilot corrections for QA workflows.
- Implemented Duplicate Complaint Detection, CAPA Recommendations, and Complaint Completeness Checking using advisory rule-based logic.
- Built full CRUD persistence, saved-complaint reopening, and responsive desktop/mobile UX with integrated frontend-backend APIs.

CERTIFICATIONS

Python Full Stack Development
Ambit Automation, Kochi
